SUMMARY

Proactive and resourceful student eager to contribute to real-world projects while continuously expanding my expertise. Passionate about leveraging cutting-edge technologies to develop scalable and innovative solutions that drive efficiency and enhance user experiences. Committed to continuous learning and adapting to evolving industry trends to deliver impactful results.

EDUCATION

SA Engineering College

2021 - 2025

Bachelor of Computer Science Engineering (GPA: 8.43 / 10)

Chennai, Tamil Nadu

Vaani Matric Higher Secondary School

2020 - 2021

XII-Computer Science (84.5%)

Vaniyambadi, Tamil Nadu

TECHNICAL SKILLS

Languages: C/C++, Python(Solved 1000+ problems in skillrack)

Development: AWS, Azure(Basics), Teraform (Basics)

Database: MongoDB, MySQL.

Concepts: DevOps, Data Structures, DBMS, OS.

PROJECTS

Web Hosting with AWS S3, GitHub, and CI/CD with CodePipeline

Designed and implemented a static website hosting solution using Amazon S3, integrated with GitHub and AWS CodePipeline for automated CI/CD deployment, ensuring seamless updates and version control.

Serverless Web Application with AWS Lambda and DynamoDB

Developed a serverless web application to capture and store user input in Amazon DynamoDB, utilizing AWS Lambda for efficient processing. Designed a scalable and cost-effective architecture leveraging AWS serverless services.

Crowdfunding Web Application using Blockchain

Developed a decentralized crowdfunding web app using Solidity, Thirdweb, MetaMask, and React. Enabled secure and transparent fundraising with smart contracts ensuring trustless transactions. Integrated Web3 authentication for seamless user experience.

INTERNSHIP

Codsoft | Web Development

June - 2024

Gained hands-on experience in frontend development, responsive design, and UI/UX principles using React, HTML, CSS, and JavaScript. Strengthened problem-solving skills and learned best practices for building efficient and user-friendly web applications.
